

# VieTape AT3601

## MASKING TAPE

### DESCRIPTION

The VieTape AT3601 is a specialized masking tape that has a flat paper backing and is gold in colour, with a synthetic adhesive. It is an ideal option for holding, bundling, sealing, and paint masking, especially in situations where exposure to sunlight is anticipated.

### FEATURES

The VieTape AT3601 is suitable for a vast array of masking applications, particularly those that necessitate UV resistance and clean removal. It has an optimal temperature of 100°C for 30 minutes.

### ADVANTAGES

The synthetic adhesive tape features a flat paper backing and possesses several outstanding qualities, including smoothness, ease of tear, resistance to both solvents and water, strong paint anchorage, resistance to adhesive transfer, and stability under sunlight.

### BENEFITS

This masking tape offers various benefits, including excellent paint line quality, good handling characteristics, resistance to paint bleed-through, resistance to paint flaking, easy adherence, and clean removal from most masking surfaces.

### TYPICAL PHYSICAL PROPERTIES

Item	Parameter
Adhesive	Acrylic
Backing	Paper
Colour	Gold
Thickness	0,085 mm

### PERFORMANCE CHARACTERISTICS

Please note that the subsequent technical information and data are intended to be indicative or typical only and should not be utilized for specification purposes.

Item	Parameter
Adhesion to steel	2.0 N/25mm
Tensile strength	76 N/25 mm
Elongation	6%
Temperature Performance	100°C max.

### STORAGE

It is recommended to store VieTape AT3601 in a clean, dry place at a temperature of 21°C and 50% relative humidity.

### SHELF LIFE

The shelf life of the product is 12 months from the date of despatch by Vietape when stored in the original carton under the recommended conditions.
