

VieTape PE7006

PROTECTIVE POLYETYLENE FILM

DESCRIPTION

PE7006 - Protective film is manufactured from PE film, the underside of the film is coated with a special adhesive layer that has good adhesion. PE7006 protects the product surface from dirt, oxidation, scratches, UV rays to help improve aesthetics and ensure product quality.

APPLICATION

PE7006's slightly transparent, including adhesive layer, Protective PE film has many diverse applications in many different fields:

- o Surface protection: Helps protect product surfaces from scratches, dirt, moisture, and shock during transportation, storage, and production
- o Product packaging: helps fix the product and protect it from damage.
- o Other applications: medical: Used to sterilize medical instruments and preserve patient samples.

FEATURES

Item	Parameter	Unit
Color	Slightly transparent	-
Backing	PE	-
Adhesive	Light sticky layer	-
Thickness	20	μm
Width, Length	Optional	-
Weight	2-20	Kg
Thickness Tolerance	10%	-

SHELF LIFE

Store in original package in a clean dry place at (10-30 °C) and 40-60% relative humidity.
 Shelf life is 1 year form date of manufacture when store at recommended storage condition

The above values are sample observed values, we do not guarantee the actual performance due to the different of application method, bonding design, bonding substrate.. We highly recommend customer to test in the real part

Issue date: September 2022
